

Lithofin KF Ceramic-Clean

Description

A special product from the LITHOFIN-Range for ceramics, quarry tiles and porcelain (KF). Lithofin KF Ceramic-Clean is a high-yielding concentrate based on a proven and balanced combination of active acids and high quality cleaning compounds. The product works thoroughly yet mildly, does not leave any residues and has a pleasant smell.

Technical Data:

Density: 1,1 g/cm³

pH-Value: <1 (concentrate)

Appearance: clear, green

Odour: pleasant

Solubility in Water: very good

Properties

Lithofin KF Ceramic-Clean removes surface residues such as calcium, lime and dirt deposits, soap scum and greasy residues, rust, etc. The surfaces will gleam without polishing and the pleasant odour emphasizes the hygienic cleanliness.

Field of Use

For every-day maintenance cleaning in bathrooms, showers, toilets as well as kitchens. Lithofin KF Ceramic-Clean is suitable for ceramic tiles, grouting, chrome, stainless steel, glass and many types of plastics. Not suitable for polished marble and limestone.

Directions for Use

Depending on the stubbornness of the dirt, dilute the product up to 1:15 and apply it to the surface with a brush or sponge. On small surfaces, simply put a squirt of Lithofin KF Ceramic-Clean on a wet sponge. Allow the product to work briefly, then rinse well with water. In case of very stubborn dirt deposits, use the product undiluted.

Please Note: do not use on acid sensitive surfaces such as polished marble and limestone, enamel, certain decorative tiles, etc. In cases of doubt, try the product in an inconspicuous area prior to use.

Coverage: 10 to 20m² per litre on stubborn dirt, up to 100m² when used for regular cleaning.

Advice: for regular maintenance of ceramic floors we recommend Lithofin EASY-CARE. In case of black mould and mildew use Lithofin KF Mildew-Away.

Storage

Keep closed and cool.

Shelf life of up to five years.

Environmental Protection

The contained surfactants are biologically degradable according to EU-regulations. Free of phosphates.

Disposal: diluted product may be added to waste water. Containers are made of environmentally friendly polyethylene (PE). Clean containers can be recycled through collection system.
